

*White Paper*

**DECENTRALIZED  
MARKETING ECOSYSTEM**

## THE ZEROCHAIN NETWORK PLATFORM FEATURES 3 COMPONENTS:

### 1. Airdrop Platform

# HOW DOES IT WORK?

ZeroChain Network? Zchain (ZeroChain Network) is a token or new currency deliberately designed to facilitate digital marketing, Zchain is an airdrop platform that allows to connect new currency companies that are still in promotion to airdrop hunters already proficient in marketing

-New Ico

The new ICO is promoting its project by spending a lot of money but they still haven't got the maximum results, they have problems during promotions,

**Don't waste your money!**

what is the solution?

- Zchain Works

ZeroChain Provides solutions....

Zchain is an airdrop platform that is able to connect new ICO/ITO that are currently promoting, Zchain has an app that functions to connect directly to the new ico / ito project + airdrop hunters who are already proficient in promotion

You don't have to pay anything for this ...

Why?

because Zchain is a platform created to promote new projects without spending money

**ZEROCHAIN NETWORK**

### Airdrop Hunter gets notification

Airdrop hunters will get notifications if there are new projects they have to complete and promote them on their social media such as YouTube, Facebook, Twitter etc.

what is the commission for airdrop hunters?

as a commission of airdrop hunters who have worked hard and have promoted the new ico project, we will give a token / coin commission that they have promoted with the agreed amount and they will be able to get Zchain commission as a bonus

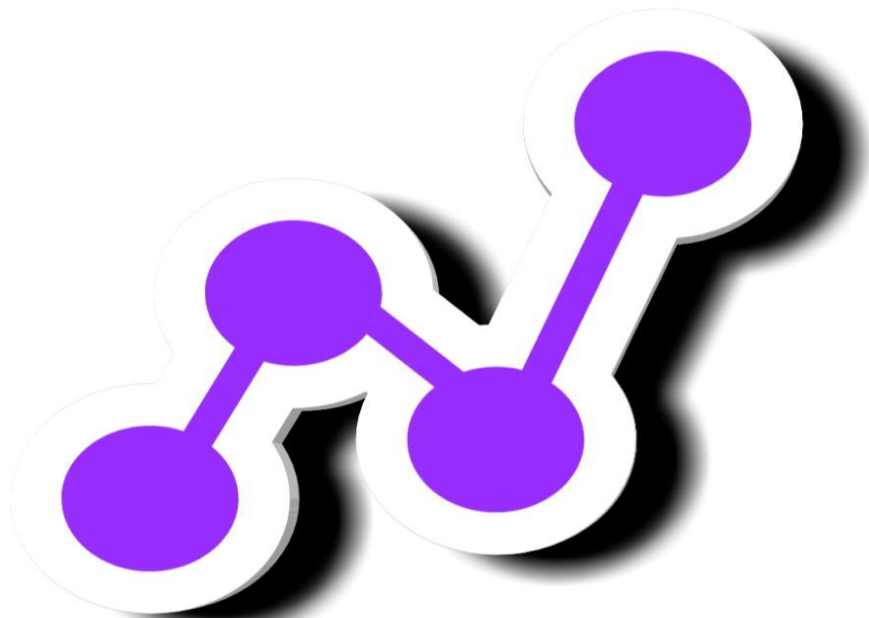

## 2. CryptoCurrency Exchange Platform

# ZchainEx

ZchainEx is a crypto currency exchange that is deliberately made to facilitate new projects, as our airdrop platform must also facilitate airdrop hunters, ZchainEx is very useful for airdrop hunters to sell their commissions

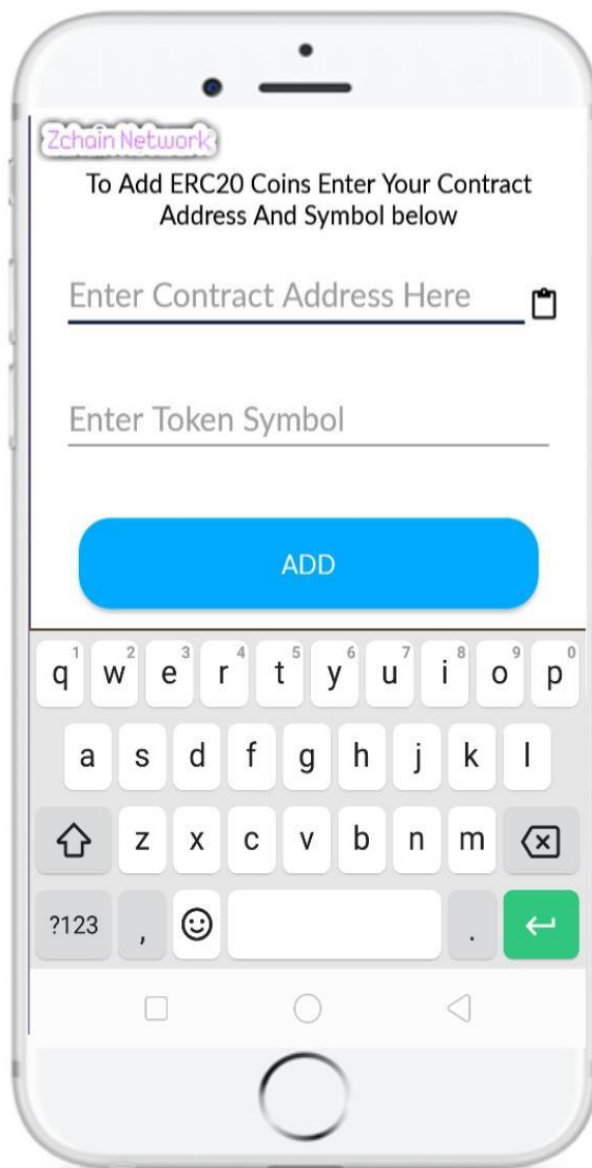

### 3. Mobile Wallet Platform (Zwallet)

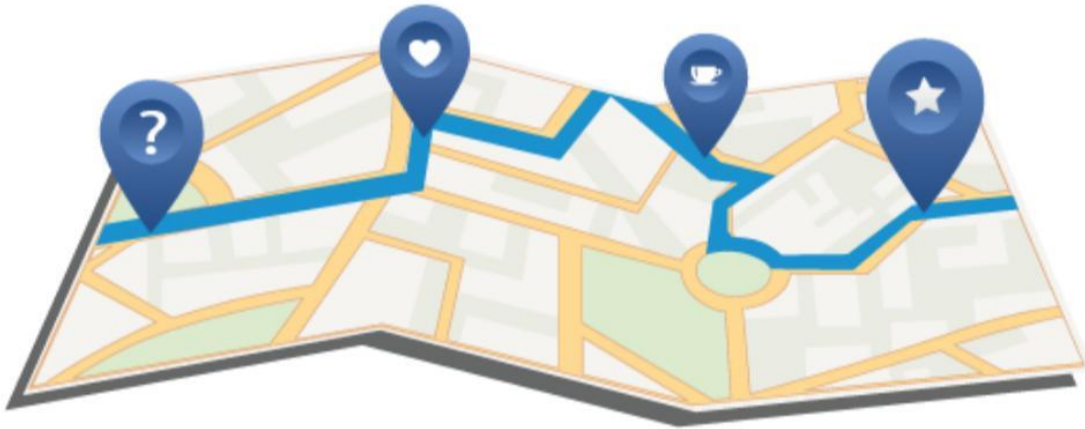

## what is Zwallet?

Zchain Wallet (Zwallet) is a wallet made by ZeroChain Network as a wallet to store commissions from airdrop, Zwallet is an ERC20 wallet, Wallet is only available for Android, but in the future we will make it for iOS, Zwallet is in safety testing and will be as soon as possible, Zwallet as a safe ERC20 wallet,

# Roadmap

ZeroChain Network roadmap

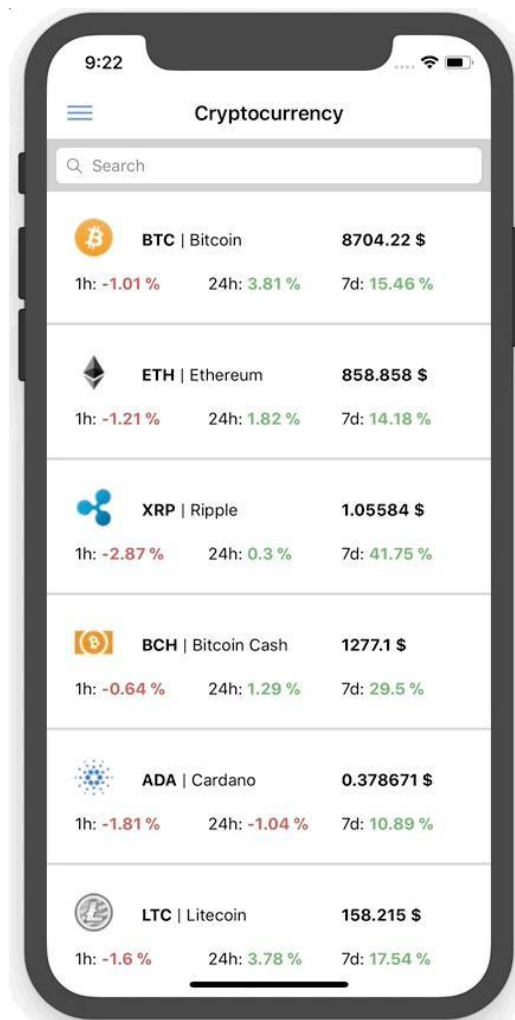

Q1 2018
